I design, build and ship web and mobile applications, AI services and agents. As technical lead of a development team, I also orchestrate specialized AI agents to deliver at the pace of a small team. Demanding about design, quality and reliability in production.

EXPERIENCE

Comafrique Technologies — Abidjan / Since January 2023

Full-stack developer, now technical lead of the development team

- Design and delivery of web and mobile applications, from scoping to production.
- Technical leadership of the team: architecture, code reviews, technical choices and quality.
- Integration of AI into applications, from design to operations.
- Deployment and operation of cloud servers: releases, monitoring, security.

METHOD

I orchestrate specialized AI agents (development, communication, server operations): I scope, split the work, review and decide. One accountable person, several workstreams in parallel, a human review before every delivery.

ENGAGEMENTS

- **SaaS MVP**: launch a web product in a few weeks, from scoping to deployment.
- **AI agents and voice assistants**: tool-using agents and real-time voice, with guardrails.
- **Mobile app**: iOS and Android with React Native and Expo, offline included.
- **Audit and scaling**: security, performance, multiple instances, cloud deployment.

EDUCATION

Pigier Côte d'Ivoire, Abidjan

Computer science, application development: BTS IDA (two-year technical degree), first year of bachelor's completed.

SKILLS

Product and interface
React, Next.js, Inertia, TypeScript, Tailwind. User flows, mockups, accessible interfaces.

Back end
Laravel, PHP, Node. APIs, queues, multi-instance applications.

Artificial intelligence
Tool-using agents, real-time voice assistants, Node AI services built to scale, context and prompt engineering.

Mobile
React Native, Expo.

Quality and security
Pest, Vitest, Playwright. Security audits.

Cloud and tools
Oracle Cloud (OCI), Forge, VPS, Docker, Git. Claude Code, Codex.

LANGUAGES

French, fluent
English

INTERESTS

Interface design, technology, product, football.
